

CMS Homeroom – What is it? - Parents

Homeroom has developed out of a campus need to provide additional support for our students to navigate middle school. The CMS goal is to provide a mentor teacher in a homeroom setting that meets daily to provide opportunities for developing relationships with students to promote student academic, social and emotional success.

Allen ISD has a district goal to promote and nurture collaborative relationships essential for successful students and schools. This CMS goal supports the district goal.

Through homeroom, we will be developing character traits, building relationships between students, developing leadership and service oriented students, providing academic support and organizational skills, developing a sense of community and developing self-confidence, just to name a few! We are excited for this opportunity to work with students on these things in a fun and relaxed setting!
