

Biomedical Equipment Technology

Modern medicine runs on technology and someone has to keep that technology in top working order. Graduates of Collin College's Biomedical Equipment Technology program have the training and experience to ensure lifesaving medical technology is in top working order. This career is perfect for people with an interest in the growing health care field but who do not want to work with patients. Top employers include hospitals, medical offices, and large clinics which provide tests for patients.

Careers in Biomedical Equipment Technology
