

Cheatham Elementary Traffic Flow Procedures

(See the Traffic Flow Maps for more details.)

- School zones and carpool lines are areas where telephone usage is prohibited for drivers. Drivers choosing to violate this law may be ticketed.
- The north entrance on Blanco Dr. is only for school buses, daycare vehicles, early childhood A.M. drop off/pick up, and early childhood P.M. drop off.
- The front of the school is used for Kindergarten and first grade drop off/pick up, and early childhood P.M. pick up. The exit from the front of the building is both right and left hand turns.
- The south entrance on Hopewell Dr. is used for second through sixth grade drop off/pick up. The exit from the south side is a right turn only. Violators can be ticketed for turning left as they leave the parking lot.
 - If a second through sixth grade student has a sibling in early childhood, Kindergarten, or first grade, they may be dropped off and picked up at the front of the school with their sibling(s).
- Form a single file line along the curb when entering the carpool line in the parking lot. Students must exit the vehicle on the right side along the curb for safety.
- Please have your child(ren) ready to exit the vehicle as soon as you pull up to the curb so we can keep the carpool line flowing as quickly and safely as possible.
- If you choose to bypass the carpool line and park in the parking lot, you must walk your child(ren) across the marked crosswalk. Our crossing guard will stop traffic so you can cross safely.

We appreciate your patience during carpool while we assist students to help ensure their safety. 😊
