- Please go to whoever has scheduled tutorials for a particular time frame, even if it is not your teacher. It is often helpful to hear an explanation from a different teacher!
- Come prepared with your homework assignments, notes, and questions so that the teachers may better help you!
- If you are making up a test or quiz, please make sure to allow enough time to finish it. For morning test makeups, please arrive by 7:45 am and plan on working into 1st period. For afternoon test makeups, please arrive no later than 3:45 pm. If you have a 1st period class, please plan on making up any tests in the afternoon.
- If you stay in tutorials too long to make it to class on time, we will NOT write you a pass.
