**Project Purpose**

What is the problem, need, or opportunity that this grant will address? Explain **what students will know and be able to do** as a result of this project and/or how a problem will be addresses and/or how a situation improved because of the grant. (500 words or less.)

The special education students will be able to work on everyday skills such as: math, charting and graphing, reading, public speaking, and cleanliness as well as building self esteem. The students will have a hands on approach with measuring, mixing, counting money, and working with the staff at Bolin. The students have learned so much from this wonderful program.

**Project Description**

How will the project or program be implemented? Describe activities and tasks.  
Who is the target population and in what ways will they benefit? (500 words or less.)

◆??Weighs and Means◆?? is a program in which students in our two resource classes are in charge of baking and selling (using play money) a product (muffins, cookies, cupcakes) to the staff at Bolin. Once every two months, both classes will bake

a product. They will then take them around the building and sell them to our supportive staff. It is wonderful to see a student who does not want to talk, step up to tell about the product. Our students have grown and matured in many ways from this grant. Our faculty also looks forward to these days.

#### Allen ISD Goals/ TEKS

Which Allen ISD goals/TEKS does this project support? Provide only two or three examples.

2.19 goods and services  
4.2 fractions  
5.13 Supply and demand

#### Measurement

What specific measurements will be used to evaluate the effectiveness of the project? (500 words or less)

Each time the product must be sold in full, the groups must work together in order to make the product. This enables the students to feel successful and develop self worth.

#### Teaching Methods

What teaching methods will be used to implement this project? (500 words or less.)

Reading instruction, math instruction and public speaking will be used to implement this program

#### Timeline

What is the project timeline and the date of implementation?

Sept. 2015-May2016

#### Curriculum/System Support

Explain how this idea or project enhances/supports Allen ISD curriculum or existing systems.

The students struggle with math concepts and this program helps them by providing hands on experiences. From start to finish all students are involved. They start to understand math with this grant. This grant allows students to implement math concepts in a real world activity. This grant gives the students real world applications of math concepts that are taught. So the students can make real world learning connections.
