The purpose of the Soaring like an Eagle grant is to provide first generation English Language Learners (ELL) and Native Speaker Spanish students the opportunity to become informed about their post- secondary options. This grant will allow us to introduce them to college programs that are available to them after high school. Many of the families of these students have not gone beyond high school education. We want these students to have all the information available to them to make an informed decision after high school graduation.

Project Description

How will the project or program be implemented? Describe activities and tasks.
Who is the target population and in what ways will they benefit? (500 words or less.)

The Soaring like an Eagle grant will allow 60 of our ELL students and 60 of our Native Speaker Spanish students to visit several college campuses in the area during the 2017-2018 school year. The intended outcome of this grant is that our students will know what resources are available to them and have the knowledge to make an informed decision about post-secondary education.

Project Summary

Provide a brief summary for use on the Foundation's website and social media. (2-3 brief sentences)

I will submit photos and thank you letters to be used as the Foundation sees fit as I have done the last two years.

Allen ISD Goals/ TEKS

Which Allen ISD goals/TEKS does this project support? Provide only two or three examples.

The Allen ISD mission statement is about being innovation in education to empower every learner to realize his or her potential. I feel like this grant helps us to reach that mission. Exposing students to a college campus within the community allows our student to expand their learning outside of Lowery Freshman Center and Allen High School. This grant will allow us to foster their desire to further their education and increase their confidence in attaining goals they have set for themselves.

Measurement

What specific measurements will be used to evaluate the effectiveness of the project? (500 words or less)

The effectiveness of this grant will be measured by the following up with the students about community college and discussing how their goals can be reached. Participants will write an essay and complete a survey to check for understanding and this will give us a chance to follow up on any questions they have after the visit. We will have our college and career advisers available and ensure they have an understanding of the process. This will remove some of the fear or barriers of applying for and attending college.

Teaching Methods

What teaching methods will be used to implement this project? (500 words or less.)

Students will be working with their counselor and / or English and Spanish teachers and research different programs and classes available at the college level online and in class prior to any visits. In addition, they will research scholarships and grants that they would eligible for. From there, they will prepare questions in preparation for their visit to the campuses.

Timeline

What is the project timeline and the date of implementation?

The timeline for this project will occur throughout the 2016-2017 school year.

Curriculum/System Support

Explain how this idea or project enhances/supports Allen ISD curriculum or existing systems.

Over the years, Allen High School has provided the opportunity for students to visit college campuses through the Destination Wings grant. This grant will allow us to start the college conversation earlier and really help these students get an understanding of college when it comes to applications, financial aid, and even visiting a campus to see how things move. The more information and opportunities we can provide to these students the better informed they are to make decisions for their education beyond high school.
