<b>Project Purpose</b>	
What is the problem, need or opportunity that this grant will address? Describe the impact of this project on your students. (500 words or less.)	
<p>Students in the high school life skills classrooms have very limited opportunities to do vocational tasks outside of simply doing classroom work jobs we have designated for them. For safety and behavioral reasons these students do not have the opportunity to go outside their school to further their vocational experiences like other students. I believe our life skills students deserve more vocational opportunities before they leave school. Vocational opportunities they can get through our Eagle Creations program, opportunities to accomplish job completion; following directions and business experience. If we had the proper funds for our program, the students have the chance to be better prepared for life outside of school. They would be able to get more involved in each step of our Eagle Creations business, from the production of our products to the selling.</p>	

**Project Description**

How will the project or program be implemented? Describe activities and tasks.  
Who is the target population and in what ways will they benefit? (500 words or less.)

The AHS life skills students will take part in creating spirit/holiday cards, buttons, gift tags and other projects they wish to sell to their community and school. The students in life skills classes have each been dealt more challenges than most of the general population. However, this program gives them the chance to be involved in each aspect of a business and have the satisfaction of completing a job and seeing it fulfill a purpose. They will distribute the products they have made to different departments in school and collect the funds, counting up the total profit.

**Project Summary**

Provide a brief summary for use on the Foundation's website and social media. (2-3 brief sentences)

The foundation has given out many grants to various schools and departments in Allen, all for the purpose of bettering the students' education and successes. The special education classroom and secondary teacher have the chance to win a grant.

**Allen ISD Goals/ TEKS**

Which Allen ISD goals/TEKS does this project support? Provide only two or three examples.

Preparing our life skills students for jobs/ life after school goes along with Allen ISD's goal of fostering opportunities for each person to become a responsible and engaged citizens. The state says the transition process should begin as early as possible but formally begins when a student with a disability turns 16 (19 TAC §89.1055(g)(1-9) and 34 CFR §300.320(b)). These transition opportunities should include post-secondary education, Vocational education, Community experiences, development of employment and other post-school adult living objectives.

**Measurement**

What specific measurements will be used to evaluate the effectiveness of the project? (500 words or less)

Our daily objective data sheets will be done, showing the student's IEP goals and objectives are being met. More people in the community will become aware of our project and purchase our merchandise, in turn giving us a bigger stream of revenue for our program to function on. With more revenue, Eagle Creations would be able to expand the number of projects we have for our students can take part in.

**Teaching Methods**

What teaching methods will be used to implement this project? (500 words or less.)

I will make activities short and concise while assigning the tasks. I will provide students with immediate feedback in regards to their assignments. I will have students working in small groups to accomplish different steps of production.

**Timeline**

What is the project timeline and the date of implementation?

The project will take place at the beginning of the 2018 school year with spirit buttons for football and continue throughout the school year with each Holiday, beginning with Halloween or Christmas.

**Curriculum/System Support**

Explain how this idea or project enhances/supports Allen ISD curriculum or existing systems.

This supports our student's individual goals/ needs. This project supports a sense of community within our classroom, school and district by giving us a way to support each other throughout the year.
