What is the problem, need or opportunity that this grant will address? Describe the impact of this project on your students.	Basketball is a great way for kids to get active and have fun! It is one of the most popular sports and most widely viewed. I would love to continue teaching our basketball unit to all of our students at Lindsey. Being at a highly populated school, we are constantly having to replace our equipment. We also are lacking in storage so we need to be extremely creative with our storage. I know our students love playing basketball and I would love for them to continue to do so.
How will the project or program be implemented? Describe activities and tasks. Who is the target population and in what ways will they benefit?	We have 800 students and this grant would be used by every students at our school. We teach the basic fundamentals in basketball to all students. They get to move in their own personal space. They will practice dribbling with right and left hands. Dribbling at many different levels and different speeds. They will practice passing with both hands and with partners. They will learn the basic techniques in shooting. The proper form. I have many different drills and games that I will teach to all age groups. The benefits to all students: *eye-hand coordination *teamwork *conditioning *increase fitness level *strategizing. Provides students the opportunity to increase personal fitness and improve their coordination. I have many different games and stations that the students will have an opportunity to do.
Provide a brief summary for use on the Foundation's website and social media.	The students at Lindsey will enjoy using their basketball equipment to learn different basketball skills and techniques.
	The Basketball for All supports Allen ISD's goals offering them choices and variety.

<p>Which Allen ISD goals/TEKS does this project support? Please provide 2 or 3 examples.</p>	<p>Resistance training elements reinforce all TEKS for grades 5-6 associated with health and fitness, agility, balance, flexibility, aerobic endurance, left/right brain integration, spatial awareness, gross and fine motor skills, upper and lower body muscular strength and endurance.</p>
<p>What specific measurements will be used to evaluate the effectiveness of the project?</p>	<p>The Basketball for All is a great opportunity for all students to improve fitness, strength and conditioning in a non-competitive environment. Close supervision and very detailed step-by-step instructions will ensure proper body mechanics and help all students achieve success through self-improvement. I will evaluate by observation.</p>
<p>What teaching methods will be used to implement this project?</p>	<p>A variety of teaching methods will be employed. As PE classes are large and have a variety of skill and ability levels. I will start by teaching the students basic basketball dribbling skills. I want them to be comfortable with the ball. Every student will have their own ball to explore with. They will go through a progression until they are moving and dribbling. We will work on shooting techniques also. I will implement lots of different activities and fun games.</p>
<p>What is the project timeline and the date of implementation?</p>	<p>We have a 2-3 week unit in basketball every year in Dec or January. However we use this equipment all throughout the year.</p>
<p>Explain how this idea or project enhances/supports Allen ISD curriculum or existing systems.</p>	<p>The Basketball for All enhances AISD physical education by offering students the experience of participating in a variety of activities and learning skills quite different from traditional sports and games while still accomplishing 5-6 PE TEKS. The Basketball Unit brings connections to various types of learners by offering a kinetic, visual, and hands-on experience. The Basketball for All Unit is cross-curricular. The Basketball Program offers many connections to academic subjects, these include: Anatomy- muscles, muscle groups, protagonist and antagonist muscles Math- force, levers, Health- lifetime fitness, strength and endurance concepts, connection between physical fitness and mental fitness</p>
<p>Total Grant Budget Requested:</p>	<p>616.00</p>
